NEW!
Moist Sure™
Soothing Hand Hygiene
A complete line of hand hygiene products, including sanitizers, soap, lotion and a dispenser—to care for professional hands and encourage compliance.

**Clinically proven to moisturize your skin...** important for dental professionals who are washing their hands all day.

**Far more effective than store-bought sanitizers.** Moist SURE soaps and sanitizers meet FDA proposed requirements for a healthcare personnel handwash. The retail stuff doesn’t.
Moist SURE™ Liquid Sanitizer

Moisturizes better than Vaseline® Intensive Care® Hand Lotion! In a forearm controlled application test (FCAT), the moisturizing ability of Moist SURE Liquid Sanitizer was compared to three skin care lotions commonly used in healthcare facilities. The results for Moist SURE demonstrated significant moisturization, comparable or superior to the lotions tested.

Clinitically proven to moisturize better than Vaseline® Intensive Care® Hand Lotion. Unlike other alcohol-based sanitizers that dry you out, Moist SURE Liquid Sanitizer contains enhanced emollients to moisturize your hands like a lotion. It keeps your skin hydrated and soft for up to two hours after each use.

Kills MRSA and VRE in five seconds. Fast effectiveness against antibiotic-resistant microorganisms.

Better protection than store-bought sanitizers. Moist SURE Liquid Sanitizer meets the FDA proposed performance standards for a healthcare personnel handwash. It’s designed for the frequent use of dental professionals. Sanitizers you buy at the store are not formulated to perform at this level.

As good or better than 4% chlorhexidine gluconate (CHG) product. CHG has been the “gold standard” in hand hygiene, but its drying effect can be unbearable! With Moist SURE, you get the same level of protection, but with the soothing feel of a lotion.

Feels wonderful on your skin. It rubs in quickly, with no sticky or greasy feel. Its free-flowing formula gets into cracks and nail beds for better coverage and protection.

Dermatologist tested and hypoallergenic.

Chlorhexidine gluconate (CHG) compatible. Oral surgeons and periodontists... don’t sacrifice dryness for cleanliness! Moist SURE does not inhibit the residual activity of CHG on skin, so you can use it along with CHG to keep your hands from drying out.

Active ingredient: 63% isopropyl alcohol

Moist SURE™ Foaming Sanitizer

**Kills MRSA and VRE in five seconds.**
Fast effectiveness against antibiotic-resistant microorganisms.

**Meets FDA standards as a surgical scrub.**
Moist SURE provides persistent activity for up to six hours. It’s as good or better than 4% chlorhexidine gluconate (CHG) product—the “gold standard” in hand hygiene. With Moist SURE, you get the same level of protection, but with the soothing feel of a lotion.

**Better protection than store-bought sanitizers.**
Moist SURE Foaming Sanitizer meets the FDA proposed performance standards for a healthcare personnel handwash. It’s designed exclusively for dental and healthcare practices. Store-bought sanitizers are not formulated to perform at this level.

**Keeps your skin hydrated and soft for up to two hours.** It won’t dry you out like other alcohol-based sanitizers.

**Foam formula is easy to use and less messy.**

**Chlorhexidine gluconate (CHG) compatible.**
Oral surgeons and periodontists... don’t sacrifice dryness for cleanliness! Moist SURE does not inhibit the residual activity of CHG on skin, so you can use it along with CHG to keep your hands from drying out.

Active ingredient: 62% ethyl alcohol

---

**Superior moisturization to alcohol-based handrubs!**
In this clinical study, Moist SURE Foaming Sanitizer laid to rest the notion that all alcohol handrubs are drying to the skin. Moist SURE showed superior moisturization, when compared to commonly marketed alcohol-based handrubs.

Moist SURE™ Foaming Soap

Kills MRSA, VRE and other pathogenic organisms. Moist SURE meets the FDA proposed performance standards for a healthcare personnel handwash.

Clinically proven to be milder than other foaming hand hygiene products. Moist SURE meets CDC recommendations for mildness and user tolerance.

As good as 4% chlorhexidine gluconate product. CHG has been the “gold standard” in hand hygiene, but its drying effect can be unbearable! In a clinical study, Moist SURE Foaming Soap performed comparably in initial kill vs. CHG hand soap.

Dermatologist tested and hypoallergenic.

Active ingredient: 0.75% triclosan

Moist SURE™ Lotion Soap

Kills MRSA, VRE and other pathogenic organisms. Moist SURE meets the FDA proposed performance standards for a healthcare personnel handwash.

Cleans effectively—yet clinically proven to be mild to your skin. Moist SURE Lotion Soap’s blend of surfactants, enhanced emollients and skin conditioners leave your hands soft and moisturized. It has a pleasant, light fragrance.

Proven, broad-spectrum effectiveness you can count on. Moist SURE Lotion Soap contains .5% triclosan—an antibacterial agent with documented efficacy for both gram-positive and gram-negative bacteria.

Active ingredient: 0.5% triclosan

Moist SURE™ Lotion

Long-lasting moisturization... even through several handwashes! Moist SURE Lotion contains emollients and other softening ingredients to prevent drying. Its properties are long-lasting—you don’t have to apply it again and again.

Chlorhexidine gluconate (CHG) compatible. Oral surgeons and periodontists... don’t sacrifice dryness for cleanliness! Moist SURE does not inhibit the residual activity of CHG on skin, so you can use it along with CHG to keep your hands from drying out.

Resists contamination. Moist SURE Lotion uses preservatives to minimize product contamination.

Good with latex gloves! Does not contain petrolatum or mineral oil that inhibits the integrity of gloves.

Dermatologist tested and hypoallergenic.

Moist SURE™ Automatic Dispenser

Ingenious design ensures cost-effective infection prevention. The dispenser’s “contained” design eliminates the potential of cross contamination that can happen with bulk fill pump bottles and dispensers.

So easy, it encourages usage! Place your hand under the dispenser, and a light shines on your palm exactly where the product will be dropped. Patented drip-free cartridge refill means no mess.

Easy, drop-in cartridge replacement. The clear window allows you to see when it’s time to replace the product. The cartridge drains completely, so you use every drop... no waste.

45,000 dispenses on just 4 AA batteries—including. A warning light lets you know when it’s time to change the batteries.

Hand hygiene, done right.

When using **hand sanitizer**...

1. Begin with the proper amount of Moist SURE sanitizer in your palm.

2. Rub hands together.

3. Rub the back-end of each hand, and in between fingers.

4. Rub between fingers on the inside of your hands.

5. Interlock fingers and rub together.

6. Rub product in and around thumb.

7. Rub product on fingertips and under fingernails.

8. Let hands dry.

When using **soap**...

1a. Wet hands with lukewarm water.

1b. Add the proper amount of Moist SURE soap in your palm.

2. Rub hands together.

3. Rub the back-end of each hand, and in between fingers.

4. Rub between fingers on the inside of your hands.

5. Interlock fingers and rub together.

6. Rub product in and around thumb.

7. Rub product on fingertips and under fingernails.

8. Rinse with water and towel dry.

9. Be sure to use a disposable towel to turn off faucet.
Infection prevention.

As a healthcare worker, the fear of infection is always in the back of your mind. Sultan’s products make it easy to keep your practice clean and healthcare workers safe by offering...

A complete cycle of infection prevention products. We think of your office as a whole, so our line of products hits all the touch points that could potentially spread disease—prior to patient contact, during and after treatment, and at the end of the day.

Products that meet the real-world needs of healthcare professionals, like you. Our products work exceptionally well, are simple to use, and safe.

Resources for proper infection prevention, including the most current procedures and information. Ultimately, we’re here for you and your practice. And we’ll continually strive to bring you the right product for the right situation, in the most user-friendly way possible.
